About Perigus Energy

Perigus Energy **develops, builds and operates onshore renewable energy projects** in Ireland, Germany, the United Kingdom and Spain.

Backed by Copenhagen Infrastructure Partners, Perigus Energy has 578 MW of installed renewable capacity in Europe and 248 MW of solar energy and onshore wind under construction. Working as a trusted partner in the communities in which it operates, Perigus Energy is guided by its vision to advance renewables together to power a secure energy future.

In **Germany**, Perigus Energy has more than 30 years of experience and locations in Regensburg (headquarter), Potsdam, Essen, Hamburg, and Lauf a. d. Pegnitz (operations management).

Within the role you will report to the Head of Legal for Perigus Energy Europe and work as part of wider European Onshore Legal team. You shall have primary responsibility for the provision of legal advice and support to the German Business, primarily in the areas as set out below.

The legal services to be provided shall cover a wide range of business units and legal areas of expertise. The legal services shall comprise a blend of legal services which can be completed in-house (and in collaboration with other members of the Perigus Energy Legal team where appropriate) and legal services where there is reliance on external partner law firms.

You'll play an important role in:

- Providing of legal support and guidance to the relevant business units in the areas of real estate, permitting, construction and general service contracts
- Supporting the Business in looking to acquire new projects or enter into new partnerships with developers. This would typically include discussions on the optimal contractual structure, provision of guidance as necessary in the collation of the relevant due diligence information from the various business units, contract drafting/negotiation and completion
- Keeping abreast of regulatory developments that impact upon the Business
- Ensuring that any revenue contracts or related energy trading contracts are compliant with applicable financial reporting regulations
- Reporting to the Head of Legal for Perigus Energy Europe and other internal stakeholders as necessary
- Managing of external legal resourcing and external legal spend for the German Business

- Assisting with a range of other contracts and legal issues that arise across the Business including NDAs, corporate legal queries (and advising on appropriate resourcing solution for company secretarial services in Germany as necessary), dispute management.

Key deliverables and measures of success

- Being embedded within the Business and in a position to advise on the priority matters (both in terms of value and risk) arising from time to time
- Integrated in parallel with the wider legal function and being in a position to report up as appropriate across projects and compliance related matters
- Develop good relationships with key stakeholders – both internal key contacts and external legal suppliers
- Be in a position to report on legal spend for Germany and advise on ways to optimise efficiency, reduce legal spend where possible and holding external legal suppliers accountable

To succeed in the role:

- German qualified lawyer with at least 5 years post qualification experience, preferably in a similar legal in-house corporate environment or in a corporate law firm
- Strong academic credentials
- Good interpersonal and organisational skills as well as an ability to take on leadership roles both internally with staff and in the context of managing external stakeholders
- Fluent in English and German
- Experience of managing commercial contracts necessary
- Experience in the fields of energy, real estate, regulatory compliance, corporate an advantage but not essential.

Office location: Heidi-Kabel-Platz 2, 20099 Hamburg or Fritz-Fend-Straße 4, 9047 Regensburg

Selected Benefits:

30 days holidays

Company pension scheme

Subsidy for AVWL (“Vermögenswirksame Leistungen”)

Subsidy for public transportation/Deutschlandticket

Mobile working from home (partially)
